

POPULAR PRE-OWNED SONG SHEETS (Published during 1940's and 1950's)

The titles on this list are followed by the composer's name in brackets.

They are offered with full piano accompaniment and they are as sold in the shops many years ago i.e. they are not photocopies. The conditions are variable and I'm sorry that the condition is not available on the list. All are guaranteed to be complete.

If you have any interest beyond the song alone e.g. from a particular film or by a particular composer my computer will answer your queries quickly-just ask by email.

The asterisk after the title indicates that they are in the WW2 mode which was smaller than those of today-printed thus to economise in paper use during the war.

If you have any questions or order please email me and I will quote prices depending on your location.

Thankyou for your interest.
